

Aoife Byrne

Dublin, Ireland | aoife.byrne@example.com | +353 87 555 0142 | linkedin.com/in/aoifebyrne-example

PROFILE

Data scientist with five years of experience turning messy product and payments data into models and analysis that teams act on. Comfortable owning work from the first question to the production pipeline, and explaining the result to people who do not read code.

EXPERIENCE

Data Scientist

Mar 2021 – Present

Fintech Co, Dublin

- Built churn prediction models in Python with scikit-learn and XGBoost, cutting monthly churn by 12% across 40,000 customers.
- Designed and analysed A/B tests for onboarding changes, and presented the findings to product leadership every quarter.
- Wrote SQL and dbt pipelines on Snowflake that feed the company's revenue dashboards in Looker.
- Mentored two junior analysts on statistics, code review and presenting results.

Data Analyst

Sep 2019 – Feb 2021

Retail Group, Dublin

- Produced weekly sales forecasts in Python and Excel for 60 stores, improving forecast accuracy by 8%.
- Automated reporting in Power BI, saving the finance team about ten hours a week.

EDUCATION

MSc Data Analytics, University College Dublin

2019

BSc Mathematics, Trinity College Dublin

2018
